A Leader in Fitness

Brooke Kramer is a senior from Kenmore East High School and is enrolled in the Exercise Science program at Erie 1 BOCES Kenton Career and Technical Education Center.

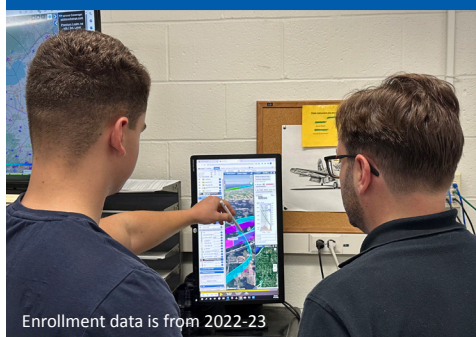

“Going through two ACL tears and having to rehab in physical therapy for nine months has shown me (what) I want to do is help people get back to doing things they love, just like my physical therapists helped me do,” said Brooke. “This class is helping me get a head start to pursue this career.”

In the fall of 2024, following graduation, Brooke plans on getting her doctorate in Physical Therapy.

“Brooke is a leader in my classroom and in the fitness room,” said instructor Jane Wright. “She sets the bar high and is always the one to help her peers with assignments and labs. Brooke also takes time to volunteer in her community and has been the captain of her varsity soccer team for the past five years.”

“I have learned numerous skills in the gym to help build muscle back, do hands-on work with my peers in the classroom and learn basic anatomy and rehabilitation tips from the book work in class,” said Brooke. “All of this will make it a lot easier for me to understand the information once I get to college.”

As part of public education, Erie 1 BOCES offers a variety of career and technical programs during the regular school day to high school students in Erie County. High school students interested in learning more about how they can participate in various programs, such as exercise science, animal science, plant science, nursing, emergency medical services or dental laboratory technology, should visit www.e1b.org/cte or speak with their high school counselor.
