Re: Board Of Education Resolution

The Clarence Central Schools has made a major commitment of integrating technology into the instructional process based on the guidelines of SED's Long Range Plan for Technology. To date the district has taken planning steps to accomplishing this goal.

Currently, the district would like to add additional network printers. A need also exists to make network printers more easily accessible to teachers and administrators. Clarence Central Schools participates in Management Services.

Since the Clarence Central Schools currently lacks funding to complete all aspects of this project during the 2017-2018 school year, the Board of Education is requested to authorize the entering of a three-year financial agreement (IPA) in an amount not to exceed \$7,511.

I am, therefore, requesting the favorable consideration and adoption of the following resolution at the September 13, 2017 Board of Education Meeting necessary to enter into this IPA:

MPN 173-03-18

WHEREAS, The Board of Cooperative Educational Services, First Supervisory District, Erie County, New York ("Board") finds it necessary to install additional network printers under Management Services to meet the needs of the school district, and

WHEREAS, the Board has evaluated and reviewed the project expansion which will function at Clarence Central Schools and will enhance the project currently supported by the Erie 1 BOCES, and

WHEREAS, the above referenced evaluation has produced a decision that the additional network printers meet all specifications, and

WHEREAS, the current outright purchase of the network printers is not possible within the current fiscal budget; therefore

BE IT RESOLVED, that the Board authorizes the administration to enter into a Financial Agreement (IPA) for a three-year term for the additional network printers in an amount not to exceed \$7,511.
