

# WNYCPC Day Treatment Program

The WNYCPC Day Treatment Program provides community-based mental health services integrated within a small school environment.

## Program Highlights

- Located in Amherst, New York
- High school and middle school classes
- Small class size (6 students or less)
- Clinical evaluations provided
- Individual, family and group therapies as indicated
- Crisis services available
- On-site program coordinator
- On-site clinical professionals - psychiatry, psychology, nursing, and social work
- Family involvement is required
- Physical education and art classes provided
- Well trained teachers and support staff

## Students

- For students with disabilities requiring mental health support and services
- Requiring more services than can be provided by the home district
- In grades 6 through 12
- Referred from in-patient units or from home district

## Program Goals

- Students to meet goals established within their individualized treatment plan
- Return students to less restrictive settings
- Decrease student absences

*“Thank you for being so kind to my child.”*
